

Communion Options

We offer three options to receive the bread and the cup:

Option 1: *The sealed individual communion packet.* This packet contains two sealed layers. The first layer opens to the bread (a wafer), and the second layer opens to the juice.

Option 2: *The two-cup stack.* The juice is in the top cup and the bread is in the bottom cup—just lift the top cup out of the bottom cup to get to the bread.

Option 3: You also have the option to pick up one of the sealed individual communion packets at the Welcome Desk when you come in the main entry.
